Kohenoor Technologies

Smart growth oriented tools for Business Intelligence

Term-wise Fund Allocation Calculator

Enter Amount in USD:

Select your goal:

- ☐ Raising Income
- ☒ Growing Wealth

Allocation:
IncomeGrowth: \$450.00
AssetsAccumulation: \$540.00
AssetGrowth: \$810.00

Allocation Descriptions:
Income Growth (Short Term - 25% for Wealth generation and 45% for raising income): This portion focuses on generating regular income and might involve investments in high-yield bonds or dividend-paying stocks.
Assets Accumulation (Medium Term - 30%): This part is allocated to assets that are expected to appreciate over a medium-term horizon. It could include a mix of growth stocks, real estate investments, or mutual funds.
Asset Growth (Long Term - 45% for Wealth generation and 25% for raising income): The largest allocation focuses on long-term growth. Investments may be in assets with higher growth potential but also higher risk, such as stocks, ETFs, or long-term bonds.

Key Features

- **Automated Trading Signals** – AI-generated buy/sell recommendations.
- **Technical Analysis** – EMA, MACD, RSI, PPO & more.
- **Market Sentiment Analysis** – AI scans news, social media & on-chain data.
